

TOMANNYPOTENTIAL

"Manny" | BREEDING CONTRACT 2027

This breeding agreement is made on _____ between Gitte Helsen (the "Stallion Owner"), of Kwamol 140, 3945 Tessenderlo-Ham, Belgium, and _____ (the "Mare Owner"). It concerns one breeding to Tomannypotential ("Manny"), AQHA registration number 6280275, for the mare identified below.

Mare's registered name: _____

Mare's AQHA registration number: _____

Stud fee: €1,000. No VAT is applicable.

TERMS AND CONDITIONS

1. Breeding Season. The 2027 breeding season runs from 1 February through 1 September 2027.
2. Semen Availability. Only cooled semen is available under this agreement.
3. Use of Semen. Semen supplied under this agreement may be used only for the mare named above. Use for another mare requires the Stallion Owner's prior written consent.
4. Mare's Health. The Mare Owner is responsible for ensuring that the mare is healthy, suitable for breeding, and free from infectious disease. A mare deemed unfit for breeding by the attending veterinarian will not be bred. If the mare dies before foaling, another mare may be substituted for the following breeding season only, with the agreement of both parties.
5. Live Foal Guarantee. For the purposes of this agreement, a live foal is a foal able to stand and nurse. If the mare fails to conceive, loses her pregnancy, or delivers a stillborn foal, the Mare Owner is entitled to one return breeding in the following breeding season only, subject to the notification requirements below. Written confirmation from a licensed veterinarian must be provided within seven days of the pregnancy loss or the birth of a non-viable foal. The Mare Owner must confirm that the loss or death was not caused by their own act or omission. A breeder's certificate will be issued upon request after the Mare Owner has notified the Stallion Owner of the foal's birth.
6. Transfer and Amendments. This agreement may not be transferred or sold. Any amendment must be agreed in writing and signed by both parties.
7. Contract Validity. This agreement becomes binding once the Mare Owner has signed it and returned a copy to the Stallion Owner. It must be completed in full and accompanied by a copy of the mare's registration papers.
8. Payment. All sales are final once this agreement is accepted. All fees are payable upon signing. Semen will not be shipped until the applicable fees have been paid.
9. Death of the Stallion. If the stallion dies unexpectedly, both parties will be released from any further rights, obligations, or liabilities under this agreement.
10. NQHA Stallion Service Auction. One breeding to Tomannypotential will be offered through the NQHA Stallion Service Auction (SSA) for the 2027 breeding season. If that breeding is sold through the SSA and the NQHA confirms that the stallion is enrolled for the relevant foal crop, offspring conceived during the 2027

breeding season will be eligible for the NQHA Futurity & Maturity, subject to the applicable NQHA rules. Such foals would normally be born in 2028. Eligibility remains subject to confirmed enrolment for the relevant foal crop and compliance with all other NQHA requirements.

11. Semen Collection and Shipping Costs. For the initial breeding under this agreement, the Stallion Owner pays for the first semen collection. The Mare Owner pays for all subsequent collections and all shipping costs. The fee for each subsequent collection is € _____. The Mare Owner will be informed of the collection fee before semen is collected. The separate cost rules for a return breeding are set out in Clause 12.

12. Re-Breeding. If the Mare Owner does not use the purchased breeding during the 2027 breeding season and wishes to carry it forward to the following season, a re-breeding fee equal to 50% of the original stud fee (€500) is payable. However, if both parties agree in advance that the breeding will be used in the following season, this €500 fee will not apply. A return breeding under the Live Foal Guarantee in Clause 5 does not incur an additional stud fee. For any return breeding under that guarantee, all semen collection and shipping costs are payable by the Mare Owner, including the first collection of that return breeding.
